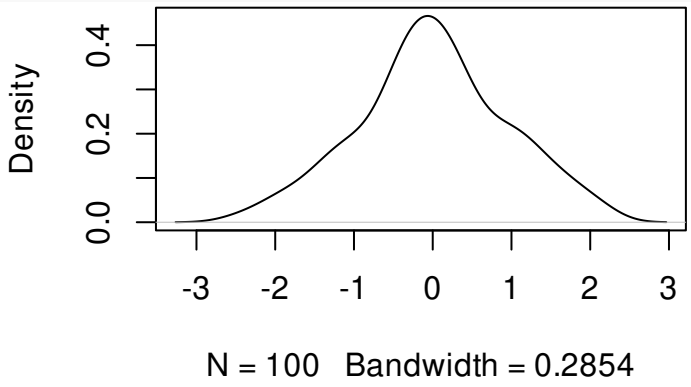
Title of the semester project

STUDENT 1, University of Geneva
STUDENT 2, University of Geneva
STUDENT 3, University of Geneva
STUDENT 4, University of Geneva

Introduction

This is an R code chunk

```
data=rnorm(100)
plot(density(data), main = "")
```



This is a evaluated but not displayed R code chunk
This is an inline R code: Hence, the mean of the data is of 0.0025879.
This is a LaTeX equation

$$f(x) = \frac{1}{\sigma\sqrt{2\pi}} \mathrm{e}^{-\frac{1}{2}\left(\frac{x-\mu}{\sigma}\right)^2}$$

Analysis

Description of the task

Motivation

Results: description and interpretation

Were these results expected: discussion

Statistical methods used

Acquired skills during the term project
